

bsaci annual meeting

Preliminary Programme

30 September – 2 October 2018 Telford International Centre UK

● Trainees ● Adults ● Paediatric ● Basic ● Immunology ● Allied Health ● Primary Care

Day I:

Sunday 30th September 2018

11.30 – 12.30

Registration

11:30 – 12:30

Tea/Coffee, Lunch, Exhibition

12.30 – 13.55

●●●●●●●

President's Plenary: General anaesthetic allergy now - results from National Audit Project (NAP 6) in association with the Royal College of Anaesthetists
 Provision of GA testing services
 Headline results of National Audit Project 6: GA anaphylaxis
 Exposure to potential allergens during anaesthesia: case presentations and discussion

14.00 – 15.30

●●●●

Joint BSACI- EAACI session: allergen immunotherapy - where are we now?
 Consensus on immunotherapy for aeroallergens
 Immunotherapy for IgE-mediated food allergy
 Biomarkers for allergen immunotherapy

●●●●

Joint BSACI-BSI session: urticaria, angioedema and auto-inflammation
 Urticaria and autoimmunity
 Angioedema differential diagnosis and management
 Auto-inflammatory syndromes

●●●

Disease modification in paediatrics
 Using trials to optimise eczema management in primary care
 Pros and cons of selective nut eating: results from the Pronuts study
 The role of anti-IgE in challenging eczema – the ADAPT study

●●

Asthma through the ages
 Wheeze in pre-school children, when is it asthma?
 Improving services for school-age children in the wake of NRAD - ELCHP
 Joint working to improve the lives of adults with asthma

15.30 – 16.00

Tea/Coffee Break and Poster Viewing

16.00 – 17.30

●●●●●

The impact of component-resolved diagnosis on patient management
 Inhalant allergens and immunotherapy
 Foods
 Venom allergy

●●●●

Food allergy interventions
 The Moo Project: the golden potential of dietetic networks
 The growth of peanut immunotherapy and future opportunities
 Can we put early introduction first in a busy world?

●●●

Airways disease and provocation testing
 Bronchial provocation tests in asthma
 AERD and aspirin provocation
 Diagnosis and management of non-allergic rhinitis

●●

When things go wrong
 Providing support for families following a severe allergic reaction
 Looking after the psychological wellbeing of staff and families following a clinical incident
 How do we learn from incidents?

17:45 – 18.45

Company Symposium

19:00 – 19:30

●

Nurses' AGM

●

Trainees' Meeting

19:30 – 23:00

Welcome Reception

Day 2:

Monday 1st October 2018

07:15 – 08:15	● Primary Care Committee Meeting			
07:15 – 08:00	● ● ● ● ● Meet the Expert Aerobiology - airborne pollen and fungal spores	● ● ● Meet the Expert Investigating GA anaphylaxis	● ● ● ● ● ● ● BSACI AGM	
08:15 – 09:15	Company Symposium			
09:20 – 10:45	● ● ● ● The exposome, modern living and allergic disease The exposome and microbiome in allergic disease How does the microbiome of the skin influence allergic disease? Asthma and respiratory microbiome instability: chicken or egg?	● ● ● ● Biological therapies in asthma and allergic disease Asthma Chronic rhino sinusitis Skin	● ● ● ● ● Joint BSACI – BSCA session Patch testing: when and what to? Patch testing and in vitro tests for drug allergy Plant dermatoses 	● ● Innovation to provide patient-driven services Involvement in patients in their referral and providing a virtual service Self-help for patients and families Supporting the child with food allergy-related feeding difficulties and their family
10:45 – 11:25	Tea/Coffee Break and Poster Viewing			
11:00 – 11:25	Special Lecture: Allergy – the parliamentary view			
11:30 – 12:45	● ● ● Paediatric clinical grand round	● ● ● Adult clinical grand round	● ● ● ● ● Basic mechanisms in allergic disease Anti-IgE: what does it really do in asthma? Innate lymphoid cells and their role in allergic disease Genetics and atopic disease	● ● Approaches to challenging clinical problems Home introduction for milk and egg allergy Drug challenges How and when to conduct single and double-blind challenges Supervised feeds vs challenges
12:45 – 15:00	● ● ● ● ● Practical Allergy Workshops Food challenges: a display and discussion covering guidelines from different centres and demonstrations of food blinding techniques Drug challenges: different protocols, how to choose when to perform a drug challenge vs SPT/IDT Eczema management: application of creams, lotions and potions Device administration: AAI, nasal, inhalers New weaning guidelines: early introduction in practice, quantities, getting the food “in” Selective nut introduction: quantities, recipes, feasibility, how to do it in practice Use of ladders for home introduction: which/when/why? Apps to support practice: what can health professionals use to aid their practice? What do patients/families find useful?			
12:45 – 14:00	Lunch & exhibition			
13:00 – 14:00	Company Symposium			
13:45 – 15:00	Poster presentations & judging			
15:00 – 16:30	● ● ● ● ● Year in review: joint SOCC-CEA session Adult food allergy Paediatric food allergy Asthma 	● ● ● ● ● ● Update on allergen exposure The indoor environment and childhood asthma The natural evolution of IgE responses to mite allergens and the relationship to progression of allergic disease Effects of pet allergen exposure on the development of allergic disease		
16:30 – 17:00	Tea/Coffee Break and Poster Viewing			
16:30 – 17:00	● ● ● ● ● Speaker's corner Managing Risk in Peanut Allergy			
17:00 – 18:00	● ● Oral abstract presentations: Paediatric Clinical	● ● Oral abstract presentations: Adult Clinical	● ● Oral abstract presentations: Basic Science	● ● Oral abstract presentations: Allied Health/ Primary Care
18:15 – 19:15	Company Symposium			
20:00 – 23:00	Evening Social Event			

Day 3:

Tuesday 2nd October 2018

07:30 – 08:30	● ● ● Paediatric Allergy Open Group Meeting	● ● Adult Allergy Open Group Meeting
08:45 – 09:45	Company Symposium	
10:00 – 11:30	● ● ● ● ● ● Joint BSACI-BAD session: atopic eczema Extending the filaggrin phenotype The interplay between atopic dermatitis and contact dermatitis The genetics of AD and asthma: two diseases, one trait? 	● ● ● ● ● ● Update on drug allergy Drug hypersensitivity phenotypes and testing Hidden drug allergens Pro-Con debate: "It is safe and expedient to proceed directly to oral challenge in most cases of penicillin allergy"
11:30 – 12:00	Tea/Coffee Break and Poster Viewing	
12:00 – 13:30	● ● ● ● ● ● ● Celebrating Excellence In Allergy Care And Research	
13:30	Meeting Closes. Grab & go lunches available
